

**Music Broadcasting Society of South Australia, Inc**  
**Board Policy**  
**COMMUNITY PARTICIPATION**

---

The Licence for 5mbs states that it will broadcast Western classical music, blues and jazz.

As a community station, 5mbs is committed to work closely and actively with local agencies and organizations to promote and showcase performing arts activities in and around Adelaide consistent with the terms of our Licence and provide opportunities for members of Adelaide's performing arts community and the community in general to participate in and influence programming

Strategies

1. The range of volunteers involved in the station will represent a broad range of groups and activities from within the performing arts umbrella in Adelaide including musicians, actors, arts management and arts agency support groups
2. 5mbs actively seeks to develop liaisons with major performing arts groups and training centres such as the University of Adelaide, ASO, State Opera and others
3. 5mbs develops and maintains strong connections with active performing. Concerts are recorded by our own recordists and used in programming. Recordings of concerts are made available to the artists.
4. Members of the broader community are able to give advice and feedback by means of an annual listener survey, through the website and direct contact with the station.
5. 5mbs actively supports the performing and visual arts activities in and around Adelaide by publicising their activities.
6. 5mbs involves both visiting and local active musicians and performers in magazine programs.
7. 5mbs develops and maintains strong relationships with schools particularly those with active performing groups and provides mentored work experience programs.
8. 5mbs provides volunteer experience.
